

# Open Letter to President Putin and the Youths of Russia

About an Overlooked Peace Opportunity and a Proposed Russian World Peace Project

By Ingemar Warnstrom, July 20, 2018

*Evil exists, it causes all wars and all terrorism. But is it really what we thought? For many years I have tried to solve the riddle of evil. Can we trace its origin? Can it be defeated and stopped? I think I found the answers! We can put an end to it and thus become whole humans. And above all we will get peace in the world, for the first time ever! To stop evil's work on Earth is our graduation test!*

## Everything is meaningful

**The world was not created by chance**, as argued by *mechanistic science*, it is an entirely conscious creation, made by the **intelligence of the universe** which in all times and all cultures, was called God.

**The Mechanistic Science** is the knowledge system of our civilization. It is a partial science, limited by a dogma claiming that only matter is real, while everything else is superstition.

**Einstein did not agree:** *"As far as matter is concerned we have been completely wrong. What we call matter is energy, whose vibration has been lowered so that it is visible to our senses. There is no matter."*

**Life is not mechanical**, it's intelligent and constantly adapts to its environment. It does not obey mechanical or mathematical laws and can't be investigated by a *mechanistic science*.

**Max Planck**, Nobel Prize laureate and one of the founders of Quantum Physics said: *I regard consciousness as fundamental. I regard matter as derivative from consciousness. We cannot get behind consciousness. Everything that we talk about, everything that we regard as existing, postulates consciousness." . . . There is no matter as such! All matter originates and exists only by virtue of a force which brings the particles of an atom to vibration and holds this most minute solar system of the atom together . . . We must assume behind this force the existence of a conscious and intelligent Mind. This Mind is the matrix of all matter."*

**Science can't paint a clearer picture of God.** He is the consciousness that created every atom and holds them all together. He is in total control of everything happening in the universe.

**The mechanistic science** works decently well in technology but can't be used where life is involved. If the electrons of the atoms are kept rotating by the intelligence of the universe, also the atom is a life unit. No "dead particles" exist in our world, which was **thought into being** by the mind of the universe!

**If God created the world, who then created God**, is a common objection. God was never created, he always existed because he belongs to a dimension beyond time. He is **the innermost characteristic of the universe—pure consciousness—the source of all life!** The human soul is also connected to this source. Our body can die, but our soul can't, it's eternal.

**Human consciousness** is not created in our brain but reflects the consciousness of the universe, filtered through the brain. We perceive it as our own. But **only one consciousness exists**, permeating the entire universe. It belongs to the dimension beyond time and space and can neither be created nor die. The universe is alive, it's an organic not a mechanical unit, and it can't be described by mathematics or mechanics, which the Big Bang-theory does.

**The Bible was adjusted** to suit the power elite's plans, but even if it's not always correct, it is a source of great wisdom, often more reliable than the mechanistic science, who's claims are designed to get rid of an intelligent creator.

**Our spiritual growth requires that we live many lives.** Our soul is only developing during its incarnations on Earth. When our body dies, the soul returns to the timeless dimension to summarize the experiences and prepare for a new life on Earth, in a new body. **We need experiences** both as a poor and as a wealthy person, as a man and as a woman, as an oppressed and as an oppressor, as a person of colour and as a white, in order **to mature into a whole person.** Our life experiences by time turn into love, humility and wisdom.

## Baseless Hypotheses

**Many atheists believe** that mechanistic science has understood in detail how creation came about. That is not true. It has elevated some hypothesis into truths for the only reason to get rid of God, because the evil forces can't coexist with him, they need to have full control of humanity by themselves.

**The Big Bang, is the magic act of mechanistic science.** It says that first nothing existed in the universe. Then nothing exploded, and everything was created, out of nothing and for no reason. As everyone understands, this is not science, it doesn't even qualify to be called Science Fiction. **The Big Bang theory should have ended here.** A scientific theory can't be based on pure fantasy. But instead a whole cosmology has been developed around it to further strengthen the atheist worldview.

**Darwin's theory of evolution** has for long been the flagship of atheism. It states that all lifeforms were developed through natural selection from a first cell created by chance. This was known to be scientifically impossible even before the complexity of the DNA molecule was settled showing that **even a simple cell's DNA program** would require 100 million pages to print out. Only a huge intelligence could create such an incredible program, millions of times more complicated than all the world's programmers could design. Chance is thereby ruled out as its creator.

Mutations happen but never contribute with new intelligent information, which would be required to create new species. Nor do any halfway developed species exist as fossils.

**The Mechanistic Science** should have been declared dead long ago and exchanged for a science based on consciousness. The reason we still have it is that evil can only survive when it can use science to bias the truth and deceive us that life is mechanical, meaningless and a pure product of chance.

**The Earth was God's gift to humanity,** with the condition that we must defeat evil. Otherwise evil would destroy it; by wars, toxins and in many other ways. The creator wants to see if we now have become clever enough to defeat evil!

**If we manage,** we pass the exam and move on to next stage, a world without evil, without wars.

## Leading us Astray

**Evil is the negative force of creation.** It gets its life energy from human suffering and death. It can be found behind most of the world's problems. It's creating chaos and wars. It's brilliant in deceiving us, making humanity misunderstand life. But it is part of God's strategy of creation and was needed in shaping the accomplished human. Evil gave us wars which brought immense suffering, but also, through millennia, made us more humble and wise.

**Wars will continue until we stop evil's** dark work, which is possible to do by education and information, a much more efficient and cheaper way than with weapons or politics. In fact, this is the only way to stop it. And it elevates man to a higher level on his development ladder. Development is life's purpose.

**The creator brought us the perfect evil!** To contribute in forming the human character, evil must have the opposite properties of what is wanted. The psychopath is perfect, he knows all kinds of evil. **The human, on the other hand is a good-natured sort** who would never think of starting a war killing people. He has weaknesses but being created in God's image, he is not evil!

**The birth of a psychopath** takes place when a person sells his soul to the forces of darkness for power and wealth, without being told that his sexual orientation turns into pedophilia and that his capacity for love and compassion disappear. **The dark power completely takes over the person.**

Teachings of mechanistic science at universities facilitates for the devil to buy human souls. If the victim knows that his soul is eternal and on an infinitely long journey he may not be so prepared to sell it to the devil. Mechanistic science removes all meaning to life!

**Through those psychopaths the dark forces control the world.** They have strong nerves but lack human feelings, are often charming and always manipulative. They easily climb to high levels in society. Pedophilia thrives among politicians. **Psychopaths are many,** about 5% of all people half of them are

men, half women. **They are God's help forces!** If man wasn't bribable but always honest, there would be no space for evil to thrive. It's the weak points of the human beings that gives evil its life-space.

Fear and greed makes us weaker, but none of them is motivated. Nothing bad can happen to us, not even when we "die"! But evil wants to keep us in fear, it makes us easier to rule.

**Psychopathy is the only evil.** It's complete. We must show that we are capable to defeat it and ready for a higher level of life. **This is the creator's test** of where we are on the development ladder.

**The mass murderer is a psychopath** who has sold his soul for money and power. This is not a disease, it is a weakness in a person's character that may become possible to heal with the new science.

## A Perfect Role Model

**During the 18 years when Jesus was missing** in his native country, he **lived in Kashmir, India**, where he learned from Indian masters to perform the wonders he became known for; transforming water into wine, feeding five thousand people with 2 fishes and five loaves of bread, curing the sick and walking on water. These abilities, known as Siddhis, are well known in India since way back in time. **He told his disciples that the miracles he did** they would also be able to do. He must have meant in a later incarnation when they were more mature and prepared for it.

**Jesus' life showed how advanced human beings can become.** He was not the only son of God. All people are connected to the same lifegiving source. Jesus just showed the natural state of a fully developed human. With the right spiritual training, many people can get there. Evil knew this was a deadly threat for them, which is why they stopped education in this field, by their mechanistic science. Instead it should be the most important of all knowledge to learn.

**Jesus' friends took him down from the cross.** He healed and returned to India where he died at high age. **His tomb is in Sri Nagar, Kashmir.** His mother Maria is buried in Murree, Pakistan.

**But the church made up their own story** where Jesus became the son of God. That, they said, was the only reason why he could make wonders. The story also reduced the risk that people might believe they could become like him. **The church has always scared us** that exercises from eastern cultures; **yoga, qigong, meditation and breathing exercises**, are of the devil. To make sure we didn't even try to develop spiritually, man was downgraded to a meaningless and useless creature that had "*come from dust*". But in fact, it was only the degree of knowledge and maturity that differed Jesus from common man.

**The Catholic Church was founded by the Roman Empire** in the 4<sup>th</sup> century, by the same black power that crucified Jesus. They said it was to support Christianity and spread his message of love. But the truth was the opposite. Through the church they gained total control over people's mind and could earn money on their naïveté. Everything truly spiritual was replaced by Pomp and Circumstance, and other things that Jesus had been opposed to.

## The Russian World Peace Project

**To get rid of evil**, we must rid ourselves of the flawed knowledge about life we have learned at the universities. All universities base their teaching on mechanistic science, the only form of science accepted in the academic world. The universities play a decisive role in how the world works, and they are run by the same destructive forces running the war industries, the news-media, the medical drug industries, the big banks and quite often also the politics of different countries.

We can't expect peace on earth as long as we accept the dark forces' theft of the world's universities, teaching that atheism is the only truth and that no higher intelligence exists!

**A peace university** establishing truth in the academic world must be part of the project, together with extensive media information telling that the world is just waking up from a many thousand years long "sleep", when we were ruled by dark forces.

**Evil can be destroyed**, not by military or political means, but by truth itself. It will bring a peace which will elevate humanity to a higher level, where spiritual, ethical, and human values are self-evident, and where man can continue his development towards his full human potential.

**God does not interfere** in our lives, not even to stop wars. He is expecting us to find a way to defeat evil, thereby ending them. His non-interference is necessary to shape the character of an independently thinking and acting human! **God wants to see us protecting his creation from evil.**

**Today, thousands of dedicated people** make a great job for the truth, and mankind is waking up. What remains is to introduce the science based on consciousness.

**A true science** will automatically lead to a spiritual view of life. Nothing less than great humility for creation is possible, after our mechanistic view of everything is gone.

**This peace project can only be implemented in Russia**, a country working for peace and where ethical and spiritual values are understood to be necessary for human well-being.

**Some western countries** are trying to create more and bigger wars. The reason is their infinite need for control, a natural trait of dark-minded people who always had to work in concealment, always scared of being discovered.

**If President Putin will support this World Peace Project**, it can start immediately and perhaps quickly influence the tense world situation. As soon as definite steps are taken to introduce a knowledge system of truth and a correct world-view, a détente may follow.

**The Russian youths has**, together with the president, a decisive role in the project, without their backing it can't be realized.

**In today's western countries** it would not be possible to realize, most probably it would be destroyed.

**I would like to contribute** with my experience from my world-view project ***The University for Global Well-Being***, in Sweden 1998-2003. It was loved by students and teachers, but it worried the dark souls who knew that if truth takes over the universities, their life and work on Earth would end. A false reality, based on the *mechanistic science* is the evil's life insurance! Our small project was considered so important to stop, that people, under false pretenses, came all the way from the US to "help" us.

**The lecturers were, however, genuine:** Among them were the professor of Eco-Philosophy, **Henryk Skolimowski**, the professor of Theoretical Physics **Amit Goswami** author of *The Self-Aware Universe*, *God is not Dead*, and *Physic of the Soul*, as well as the director of the *Scientific & Medical Network*, **David Lorimer** and many, many others.

***The Struggle between Darkness and Light***, the big life drama, is designed and staged by the consciousness of the universe knowing that living the drama is necessary for development of man's full potential. Behind all its aspects and actors, their creator can be found, **the consciousness of the universe.**
